

## Reveal Truman Chart To Break Berlin Crux

### Planned To Send Vinson To Moscow

Washington, Oct. 8—(AP)—The capital was alive with reports tonight that President Truman has been planning a sensational move in American relations with Russia which he originally intended to announce to the nation and the world in a radio broadcast last Tuesday night.

Reports on which the White House and the state department both refused to comment said that Mr. Truman had decided to send Chief Justice Fred M. Vinson as a personal emissary to Generalissimo Stalin to try to break the deadlock over Berlin.

According to these unconfirmed—but not denied—accounts, the State Department intervened after the White House had begun arranging for radio time and it was finally decided that Secretary of State Marshall should return from Paris to confer with the president about the matter.

#### Marshall Returning From Paris

It was on Tuesday afternoon, about 4:30 p.m. central standard time, that the White House announced that at the president's direction, Marshall was returning here briefly from the United Nations meeting in Paris. It was stated that he would report personally to the president on the international situation.

The State Department at that time said that Marshall would remain over the week-end and that he had expected all along to report personally to Mr. Truman from time to time on the course of events at the critical Paris sessions.

What was a matter more of rumor than of substantial report here tonight was what had caused the White House to change its plans for the broadcast and call the whole thing off.

#### Levett Objects

One rumor was that Undersecretary of State Robert A. Lovett objected to the Vinson project and got to such a degree that it was finally suspended.

Another was that Marshall himself vigorously protested any such course of action at this time during his trans-Atlantic conversation with the president on Tuesday.

Another aspect of the situation which was unclear was the degree of coordination—if any—which the administration had planned in the event of such a move, both with Republican foreign policy leaders and with the other western powers, Britain and France.

Under Marshall's direct management, the whole course of negotiations with the Soviets on the Berlin crisis has been bi-partisan in the sense that it has been supported by Republican Presidential Nominee Thomas E. Dewey and his foreign policy adviser, John Foster Dulles, who is also one of Marshall's top advisers.

Moreover, all moves made in the negotiations to date including the latest maneuvers in the United Nations Security Council, have been taken jointly with Britain and France. One of Marshall's major concerns has been to preserve the solid front of the western powers.

## Fear Treasure Seeking Boat Lost In Mexican Waters

San Diego, Calif., Oct. 8—(AP)—A 112-foot motorship with 12 persons aboard was feared lost today in a storm as it returned through Mexican waters from a search for pirate loot.

The Malibu Inez sent out an SOS last night. The message said it had run into winds of 50 to 60 miles an hour. It reported its position as off the tip of Cape San Lucas, 800 miles south of here.

The merchant ship Empire State covered the distress area and reported it had made radio contact with the smaller craft but could not find it.

The coast guard, however, said planes in the area were continuing the search.

#### POINT OF LAW FREES

#### TWO PROSTITUTES

Windsor, Ont., Oct. 8—(AP)—Lawyer Morris Kamin described his two girl clients in court today as prostitutes and thus got them off on a charge of being vagrants.

The point of law was argued when Camille Chateaufort and Betty Stone were brought up on charges of vagrancy. They were arrested while walking the streets.

Kamin said the two girls were known to be prostitutes but that prostitutes were free to walk the streets. Magistrate A. W. MacMillan dismissed the charges.

## Argentine Minister Makes Bid For Berlin Merger

Paris, Oct. 8—(AP)—Argentine Foreign Minister Juan Bramuglia talked privately with Andrei Y. Vishinsky today in a desperate bid for a face-saving compromise between East and West on Berlin. An Argentine source said "the negotiations are going along perfectly."

After his secret conversation with the Russian deputy foreign minister, Bramuglia scheduled a night meeting with another Soviet leader—Dmitri Z. Manuisky, foreign minister of the Soviet Union.

Bramuglia pushed his peace efforts as Secretary of State George C. Marshall was quoted by the American embassy as saying "if there ever was, in time of peace, a threat to peace," it is the Berlin blockade.

The embassy said Marshall told a group of labor leaders of western Europe that there had been a long series of provocative acts since last March in Berlin and that "almost any one of these acts—30 years ago—could have been the basis for a serious breach."

Newsmen were not permitted at the meeting and the embassy later made available excerpts of the secretary's remarks.

There was no word on the scope of the talks undertaken by Bramuglia in his role as president of the

## Convict GE, Five Other Firms On Anti-Trust Count

New York, Oct. 8—(AP)—A federal judge today convicted the General Electric Co. and five other defendants of violating the anti-trust laws by conspiring to monopolize trade in hard metal compositions.

Judge John C. Knox, who gave the verdict after more than a year's consideration, said he believed "this is the first criminal patent pool anti-trust case."

"The defendants engaged in direct price fixing," he ruled. Convicted with the giant electrical firm were two of its subsidiaries, the International General Electric Co. of New York and the Carbonyl Co. of Detroit, and three individuals—Walter G. Robbins of Detroit, president of Carbonyl; Zay Jeffries of Cleveland, chairman of the Board of Carbonyl; and Walter M. Stearns of Schenectady, N.Y., former General Electric manager of trade relations and special accounts.

The three companies are subject to possible fines totaling \$25,000 each, the individuals to similar fines and possible imprisonment of five years each.

## Truck Companies Announce Plans To Speed Hauling

Washington, Oct. 8—(AP)—A nationwide agreement covering the interchange of loaded trailers among highway trucking companies, to speed the movement of long-haul freight, was announced today.

The "Vehicle Interchange Code," governing the use of trailers much as railroads swap freight cars, was worked out by the common carriers conference, one of 10 units of the American Trucking Associations, Inc.

The ATA opened its 15th anniversary convention here today, with 2,000 delegates meeting in three hotels. Tomorrow the ATA will hold its annual "National Truck Roadshow" in downtown Washington.

The interchange code represents three years' work by a committee headed by George Briggs of the Briggs Transfer Company of Eau Claire, Wis.

#### HURRICANE STRIKES HAMILTON, BERMUDA

Hamilton, Bermuda, Oct. 8—(AP)—Extensive damage, estimated at more than \$1,000,000 was caused by the hurricane which struck this British colony last night. Winds reached more than 100 miles an hour but no casualties were reported.

Roofs were blown off, including a portion of the roof of the House of Assembly, and the sides of some buildings were blown in.

The tropical storm, third one to hit Bermuda this fall, caused more damage than the other two combined.

#### INCREASE BERLINERS FOOD RATIONS

Berlin, Oct. 8—(AP)—All Germans in the three western sectors of Berlin were given an increase in food rations tonight despite the Russian blockade which forces all food to be imported by air.

Maj. Gen. E. O. Herbert, British commandant in Berlin, announced a blanket increase of 200 calories a day for all types of ration card holders. The increase will go into effect Nov. 1.

It will apply to the American and French sectors as well as the British.

## Green, Stevenson Would Revise State Constitution

Chicago, Oct. 8—(AP)—Speaking from the same platform for the first time in the campaign, both the Republican and the Democratic nominees for governor promised today to work for constitutional revision and against any state income tax.

But they differed somewhat in their ideas on how to hurdle the difficult and long-standing barriers to rewriting the 1870 Illinois charter.

Republican Gov. Dwight H. Green suggested education of the voters and a general understanding and unity by political leaders, plus some sort of compromise to gain "mutual respect between Chicago and downstate."

Democrat Adlai E. Stevenson said in effect that he agreed with such efforts. But he declared that it could be done quickly by the so-called "party circle" bills which Green vetoed in 1945.

Green vetoed the bills because his GOP attorney general, George F. Barrett, said they were unconstitutional. Stevenson said he didn't agree with Barrett, and that since some other states had enacted party circle bills, Illinois could, too.

## Truman Foretells Disaster Should Republicans Win

Buffalo, Oct. 8—(AP)—President Truman said tonight the GOP is following the "same fatal course" that led to disaster in 1929 and to "privileges for the few and neglect of the many."

Mr. Truman climaxed a campaign through Gov. Thomas E. Dewey's own back yard with a speech here tonight.

"The leopard has not changed his spots," he said. "He has merely hired some public relations experts. And they have taught him to wear sheep's clothing, and to purr sweet nothings about unity in a soothing voice."

"But it's the same old leopard," The Republicans, Mr. Truman said, have one main asset in the campaign—a tremendous financial support. He said their main liability is—their issues.

Says GOP Record Bad  
"They have concluded, he said, 'that their record is so bad on the important issues of the day, that they can't even discuss them.'"

The two great questions in the hearts of most Americans today, Mr. Truman said, are: War or peace? Hard times or prosperity?

He said he believed prayers for peace will be answered. He added that he is rushing back to Washington to talk with Secretary of State Marshall tomorrow about "constructive and peaceful solutions of our problems abroad."

Everybody, including the Republicans, wants prosperity, too, Mr. Truman said.

"Place People Second"  
"But the leaders who now control the Republican party," he said, want prosperity for special privilege groups first and for other people second. They want high profits for their campaign contributors, and high prices for the special interest lobbies.

"In the mad scramble to get that selfish kind of prosperity, they forget about the rest of the country." Real prosperity, he said, is based on justice, and fair treatment for all kinds of people.

Earlier, the president attacked Representative John Taber (R-NY) for using a "meat axe" on worthwhile appropriations.

## Federal Jury Indicts 'Tokyo Rose' For Treason

San Francisco, Oct. 8—(AP)—Mrs. Iva Toguri D'Aquino, 32-year-old Los Angeles-born "Tokyo Rose" was indicted for treason by a federal grand jury today.

The government charges she was one of a half dozen women whose radio broadcasts for Japan during the war were designed to hurt the morale of American troops and hinder the United States war effort.

Mrs. D'Aquino, a graduate of the University of California at Los Angeles, was the only broadcaster born in this country.

Conviction on the charges carries a possible death sentence and a minimum of five years in prison and a \$10,000 fine.

Richard J. Lyons of Libertyville made a spirited defense of Green's eight-year GOP state administration in speeches prepared for Chicago ward rallies.

Lyons was in the legislature for 10 years. In 1940 he lost to Green in the GOP primary. Now he is a Green-appointed deputy director of the State Department of Revenue.

Lyons said Stevenson is using "double talk and is distorting the truth" in speeches on Green's record on state aid to schools. He said Stevenson was nominated by "New Deal bosses," and has been "far too busy with his friends in the international diplomatic set" outside the state to know what he is talking about.

"DOC" BLANCHARD  
RECEIVES SILVER WINGS  
William Air Force Base, Ariz., Oct. 8—(AP)—Lt. Felix (Doc) Blanchard, former All-American Army football player, today received his silver wings as a fighter plane pilot.

## Miners Support Lewis In Stand For Dewey

### State GOP Leader Slain On Busy Chicago Street

Chicago, Oct. 8—(AP)—A phantom killer who struck swiftly and apparently unseen hacked a Republican state politician to death early today on busy Randolph street.

The victim was William John Granta, 42, who was found in a splash of blood at the entrance of his skyscraper apartment building at 188 W. Randolph street.

Granta was a member of the Illinois Industrial Commission and a candidate for circuit court clerk. His brother, Peter C. Granta, is a state representative.

The attack, to which police have found no witnesses, was made a few doors from the State of Illinois Chicago office building and less than a block from the combined City Hall and County Building. Chicago's main theater district is two blocks east of Granta's apartment.

Dr. Jerry Kearns, coroner's physician, said the assault apparently was made with a heavy weapon of the bayonet type. Two deep slashes, apparently inflicted from behind, split his skull.

Alfred J. Flynn, executive assistant to the State Industrial Commission, said a possible suspect was "a man with a heavy foreign accent" who had called at the commission office several times and asked for Granta.

He said the man carried a package "that very well could have concealed a weapon." The commission handles workmen's compensation claims.

After conferring with Chief of Detectives Walter Storms, Police Commissioner John Prendergast said:

## Telephone Strike Threatens Illinois Downstate Area

Chicago, Oct. 8—(AP)—The threat of a strike which would cripple telephone service in downstate Illinois developed today.

Mrs. Anne C. Benscoter, president of Illinois Traffic Division 14, Communication Workers of America, said she had ordered a strike vote taken next week among the division's 11,000 operators and clerks. She said a strike might begin Oct. 15.

Mrs. Benscoter said the action was taken because of a "statement" in wage talks with Illinois Bell Telephone company. The union rejected a company offer of wage increases of one to three dollars weekly. The union has asked a 15-cents hourly boost.

However, union and company officials planned to meet Tuesday with federal conciliator Blake C. Smith to see if something can be worked out.

The union represents 3,000 long distance operators in Chicago and more than 7,500 clerks and operators in downstate Illinois and northwestern Indiana.

The strike spread to ports and railroads, and the government ordered coke oven operators back to work under threat of fines and jail terms if they refused.

Most prolonged fighting was in Michewille, near Nancy, where 500 troops battled striking coal miners with clubs and tear gas for five hours.

The troops fought into the Michewille steel mill which had been occupied by striking coal miners. But the strikers finally reoccupied the mill. Eight soldiers and two strikers were injured. The strikers captured seven soldiers, but later released them unharmed. The strikers had occupied the mill in order to prevent any of their number going back to work at its coke oven.

Police also drove striking railroad workers out of the station in Chalons-sur-Marne, but no casualties were reported.

## Petrillo, Record Companies Strive To Absolve Ban

New York, Oct. 8—(AP)—James C. Petrillo and the record companies issued a joint statement today saying "both sides are striving for a mutually satisfactory solution" of the recording ban.

The statement came at the end of the fourth day of negotiations between officials of the major phonograph record companies and the president of the AFL-American Federation of Musicians. They will resume their talks Monday.

The ban has been in effect since Dec. 31 when the old recording contract expired. It provided royalties on records paid directly to the union for its welfare fund. The Taft-Hartley law prevented a new contract with the same provision.

The present discussions revolve chiefly around a proposal by Petrillo for payment of royalties into a fund to be administered by an impartial trustee. The major question in the negotiations is said to be whether the plan would be legal under the Taft-Hartley law.

## Brooks Stresses Internal Unity

Rockford, Ill., Oct. 8—(AP)—Republican Senator C. Wayland Brooks said tonight that "internal unity and elimination of communism from within our own ranks are the two paramount issues" of the 1948 campaign.

In a speech prepared for delivery at a GOP rally in Rockford, Brooks said election of the Dewey-Warren ticket is the best assurance of achieving these objectives.

He renewed his defense of the Taft-Hartley labor law, which he voted for, and said President Truman is "double dealing" the labor issue.

## UMW Calls For Election Day Holiday

Cincinnati, Oct. 8—(AP)—John L. Lewis won support from the United Mine Workers convention today in his drive to defeat President Truman, whom he described as "an enemy of your union."

"Any man in this organization who wants to trade me off with Truman, let him trade and be damned to him," Lewis said before the 3,000 delegates adopted by voice a resolution attacking Mr. Truman and Democratic National Chairman J. Howard McGrath.

The statement said both favored injunctions against the UMW and Lewis in recent strikes.

The resolution called for a mine holiday on election day, Nov. 2, to carry out the political action policy which the miners approved at today's session.

In contrast to the sharp criticism of Mr. Truman, the resolution said: "Does Not Name Dewey"

"As to the other major party candidate for president of the United States, we can only say that, to our knowledge, he has never uttered any statements that reflect upon the integrity or the objectives of the United Mine Workers of America, or its officers or members."

That was the only reference to Republican Candidate Thomas E. Dewey, and it did not name him.

One top officer of the union in a position to know what was intended by the statement said it was an indirect endorsement of Dewey.

"What else could it be?" he quipped. Lewis, in a speech to the delegates, said:

"When you see an enemy in public office you better withhold your support from him."

Lewis is emphatic  
"Forget your fealty to a political party and remember your fealty to your home, your family, your country and your union," he said.

"A politician is for the UMW only as long as it is politically expedient to be for the UMW."

Even former coal miners sometimes forget their friends when elected to public office, he said. Rep. Gerald Landis (R-Indiana), a member of the House labor committee, and one-time coal digger, was one of them, Lewis said. Landis voted for the Taft-Hartley Act.

"So the hell with Gerald Landis," Lewis shouted. "I'm against Landis, like I'm against Taft, like I'm against Truman, like I'm against any enemy of this union."

## Woman Submits To Lie Test To Prove Innocence

Chicago, Oct. 8—(AP)—Dr. Alice Lindsay Wynkoop underwent a "psycho-Detecto Meter" test today which, its inventor said, "proved without a doubt" she did not murder her son's pretty wife in 1933.

Dr. Wynkoop, 77 years old physician, was released from Dwight Reformatory last December after serving minimum time of 13 years and nine months on a 25 year sentence for murder. Rheta Gardner Wynkoop, her daughter-in-law, was slain on Nov. 21, 1933.

Told that the test had showed she was innocent, the frail, white-haired woman burst into tears. Then she turned to Dr. Orlando Scott, inventor of the device, and said:

"I've only lived to prove my innocence. I can never thank you enough."

The elderly woman steadfastly maintained her innocence at her arrest, during her trial and after her release from the reformatory.

Dr. Scott said his instrument measures electrical impulses in the body and brain. Dr. Wynkoop could not take the conventional type of lie detector test, he added, because her blood pressure is too high.

## Indict Two Men Who Killed Elderly Lady When Drunk

Harrisburg, Ill., Oct. 8—(AP)—Thomas Tolbert, 55, and Elmer Joiner, 29, were indicted by a special grand jury today on charges of kicking a 68-year-old woman to death last Friday night. She was trying to protect her husband from a knife attack at the time.

The woman was Mrs. Sarah Slaton. Her husband, Andrew, 71, is suffering from knife wounds. In addition to murder indictments in the case of Mrs. Slaton, Tolbert and Joiner were indicted on charges of assault to murder her husband.

State's Attorney K. C. Ronalds said the trouble started when the two men, drunk, started a fight in front of the Slaton home and Slaton went out to stop them.

**REVENGE MOTIVE ONLY PIERCES  
FOG AROUND HENRY WALLACE**

On the day when he virtually conceded the 1948 presidential election to someone else, Henry Wallace said to his campaign manager, C. B. Baldwin, "We've got to build a party, Beanie, we've got to build a party."  
The first fruits of this belated advice are exhibited in Mr. Baldwin's announcement that the third party is endorsing or withdrawing opposition from some 25 liberal Democratic candidates for Congress. This adds another touch of contradiction and confusion to one of the most illogical of the serious political movements in our history.  
Apparently the move is intended to provide a wedge for Mr. Wallace's re-entry into the Democratic Party, or at least its non-Dixiecrat branch, in time for 1952. It is an obvious bid for the support of the Roosevelt family, the Wilson Wyatts and Chester Bowles and Helen Douglasses and others who decided, early in the game, that for all their New Deal sympathies they wouldn't touch the Communist-rigged movement of ex-New Dealer Wallace.  
It is also an obvious bid for the labor vote, whose leaders have stayed away from Mr. Wallace as pointedly as the rest of the big-name New Dealers and millions of others who supported Franklin D. Roosevelt. Perhaps, as some have surmised, it is a concession to the more moderate elements of the Wallace party, but that is open to question.

One thing seems evident, however. Mr. Wallace has made his move too late. This latest about-face does not square with the general tone of a campaign which one political writer has aptly wrapped up in the slogan, "My Country, Always Wrong."

It is interesting to note that Mr. Baldwin, in announcing the switch, admitted that third-party endorsement of a candidate could amount to a kiss of death. In explaining why third party candidates had been withdrawn from several races, he spoke of "pressure and threats of withdrawal of financial support exerted on many Democrats if they accepted our endorsement."

In choosing the candidates that it would support, the third party used the CIO yardstick for determining the liberality of congressional incumbents from their voting record. This is the same CIO that Mr. Wallace has accused of many grievous errors, including working for the interests of those monsters of reaction, the steel industry.

And in choosing the party of its newly-chosen candidates, the Wallaceites picked one which, according to their standard-bearer, is indistinguishable from the Republicans in such matters as eagerness for war, control by Wall Street, and the taking of candy away from babies.

So if voters were puzzled about what the third party stood for before, outside of a blanket apology for everything done by the Kremlin, they must be doubly puzzled now. They are confronted by the spectacle of Mr. Wallace still going around the country roundly condemning the party of a couple dozen candidates that his own party is trying to get elected.

About the only clear thing that emerges from this thickening political fog is the picture of the presidential candidate himself, who is looking less like a mystic reformer and misguided messiah, and more like a politician who doesn't care much what else happens so long as he can help defeat the man who embarrassed him by giving him a boot out of the Cabinet and, indirectly, prevented him from sitting in the White House today.

**COMMUNICATION**

Editor, Journal Courier,  
Jacksonville, Ill.

Saturday, October 9th, is a very important date in the lives of our young American citizens in Morgan county who are our voters and taxpayers of tomorrow. That date decides whether we are going to give them every possible advantage of training today, to let them go forth as better trained, better educated leaders of tomorrow, by becoming a solid county school unit whereby these young citizens will have the advantage of trade schools, equipment, etc., today, or do we want to wait until we can see fit to build a group of smaller individual unit school plants in years to come, whereby we not only will have to establish a school plant, but in several instances, a water system, sewage disposal system, fire protection, etc.

These thoughts and the following questions should be carefully considered before casting your vote Saturday at the polls:

1. Is the welfare of every child in the county our responsibility?
2. Does each child rate the best possible educational opportunity?
3. The preamble sets aside that we are free and equal. Don't you think that each child should be given this equal portion of your tax money?

Sincerely,  
Mrs. Edgar Anderson  
And a group of voting taxpayers in the Chapin-Concord-Arenville District.

**New Englander Has Learned  
Prosperity Begins At Home**

By Hal Boyle

Fall River, Mass.—(P)—A chief industrial problem in this old New England textile capital is the refusal of men to do "women's work."

It is also a leading cause of male unemployment. This is a happy hunting ground for a bachelor looking for a wife. He can pick and choose. For women outnumber men by a 12-to-11 margin, a ratio of the sexes opposite to that in western sections of the country.

One reason is the heavy concentration of women in garment industries here. A number of plant owners as well as union officials would like to break up this concentration. But so far they've met with little success.

Men More Stable Workers  
The owners originally brought in women because they worked for lower wages, said one man familiar with the industry's problems. "But now they would like to get more men. They've found men are more stable workers. And the union leaders want the men, too, because they feel men make better union members."

But many men hereabouts just won't go to work at the machines which turn out large quantities of the nation's dresses, pajamas and lingerie. They feel it is "sissy work" and dislike jobs in factories where a majority of their co-workers are women.

This is largely a local prejudice. But the prejudice, however outworn, is real. There are some 2,000 men, including 800 war veterans, unemployed here. Yet the daily newspaper carries every afternoon large ads for unfilled garment factory jobs paying up to \$85 a week.

Seek To Avoid Mistake  
Like many New England communities, Fall River is seeking to avoid the economic mistake it made in the past of putting all its eggs in one basket—the textile business.

At one time this area was the world's leading producer of textiles. It was as dependent on weaving cotton as the old south was on growing cotton.

But its markets, bolstered by the first World War, collapsed in 1927-28 in the face of ruinous competition from more cheaply produced cloth manufactured in the southern states and Japan.

"We lost 80 per cent of our textile business over a 10-year period," one man said. Another put it even more succinctly: "The mill business just went to hell here."

The city wants no repetition of the lean years of giant public relief rolls.

**Motor Club Will  
Present Cornish  
With Certificate**

A certificate of award will be presented to Tom Cornish of Tom Cornish Inc., in appreciation of the public contribution rendered in the driver training program at Jacksonville high school, Charles M. Hayes, president of the Chicago Motor club, announced Friday.

This is the first year since the war that the high school has offered the course to eligible students and the first year that Tom Cornish, Inc., has loaned a new sedan to the school Mr. Hayes said.

The award is given for outstanding service in the cause of traffic safety by providing an automobile to the school without charge for behind-the-wheel instruction.

Last year, 129 high schools throughout the Chicago Motor club's territory in Illinois and Indiana trained 7,500 students. This year, 164 high schools have added the course to their curriculum and it is expected that over 200 schools will be teaching driver training before the end of the first semester.

## Jury Finds Pastor Innocent In Peace Warrant Procedure

After hearing testimony from several witnesses in a trial held in the Morgan county circuit court room with Justice of the Peace C. S. Smith presiding, a jury returned a verdict finding that the Rev. Archie V. Harris was innocent of having made threats against Charles W. Tinsley, the complaining witness.

The minister was charged with making threats against Charles W. Tinsley, who swore out the peace warrant.

The reported difficulties between the two men took place at a church meeting Oct. 1. The argument in which the pastor is alleged to have threatened Tinsley involved the remodeling of the church, for which a campaign was conducted a short time ago.

After his arrest Rev. Harris engaged M. Brooks Byus and Andrew Ormiston as his attorneys. They appeared in his defense at the trial opened Friday morning.

State's Attorney W. L. Fay appeared for the People. Both the state's attorney and defense lawyers pointed out that the peace action is not a criminal proceeding, but is held to determine whether the defendant shall be placed under bond to keep the peace, or cleared of the charge of making threats.

The case was called at 10 a. m. in the justice court, where it was determined that it should be tried by a jury. Justice Smith ordered a removal of the trial to the circuit court room because of the 50 or more persons in attendance.

A jury of six men was selected, the last having been accepted at noon. Justice Smith adjourned court until 2 p. m., at which time the trial was resumed.

The verdict was reached shortly before 6 p. m.

## Pigeon Gets the Point

This pigeon at Cleveland Municipal Airport is a bit flustered by the pronged device which keeps him from roosting atop the fog landing light. That's what engineers of the Westinghouse Electric Corporation had in mind when they designed the gadget to keep birds from obscuring the face of the lamps and creating a hazard for incoming planes.

Jerseyville—The First Methodist church of Jerseyville was the scene Wednesday evening of the wedding of Miss Mamie Fraley, daughter of Mr. and Mrs. Estel Fraley of Jerseyville, and Ralph Donald Shelton, son of Mr. and Mrs. Ernest Shelton of Carlinville. The double ring service was performed by Rev. David Harmon, pastor.

The couple exchanged vows before a candle-lighted altar decorated with palms and baskets of white gladioli. Miss Mabel Ewin, organist, played the traditional wedding marches and was accompanied for the soloist, Mrs. Robert Erwin who sang, "Because" and "I Love You Truly."

Mrs. William Vanaudoll, sister of the bride, was matron of honor and Mrs. John Cairns, sister of the groom, was bridesmaid. James Shel-

ton served his brother as best man, and Ralph Farley, brother of the bride, was groomsmen. The ushers included two nephews of her father, who gave her in marriage. Her gown was of white satin made en train, with a peplum skirt. The fitted bodice had a deep yoke of marquisette and long tight sleeves terminating in points over the hands. Her veil of illusion was finger-tip in length and was attached to a beaded crown. She carried a shower bouquet of white roses and her only jewelry was a strand of pearls.

Following the ceremony a reception was held at the home of the bride's parents. A tiered wedding cake centered the refreshment table and cut flowers were used for house decorations.

Mr. and Mrs. Fraley left for a wedding trip. For traveling the bride chose a gray wool dress trimmed with blue velvet and her accessories were of black. Upon their return they will reside on a farm east of Jerseyville.

## Visits City First Time In 30 Years

Mr. and Mrs. Ralph Reynolds, Jr., of Orange, Calif., arrived in the city Thursday afternoon for a several weeks' visit with their relatives. This is Mr. Reynolds' first visit to Jacksonville since he went to California 30 years ago, but Mrs. Reynolds was a visitor four years ago.

Mr. Reynolds is in charge of the Orange county garage, supervising the maintenance of a fleet of cars and trucks. Before his removal to the west coast he was employed in the garage of the late R. T. Cassell, who was dealer in Overlands.

The Californians are at present visiting in the home of her sister, Mrs. Clarence Massey, and will divide their time among numerous other relatives. They expect to visit in Louisville, Ky., before starting the return trip.

## 320 Cars Tested By Safety Lane At Carrollton

Carrollton—Three hundred and twenty Carrollton and Greene county cars had passed through the state Safety Lane here from Monday until Thursday morning, and of that number 123 passed the inspections, 180 were rejected and 37 were rechecked.

The Safety Lane, sponsored here by the Carrollton Civic League, is maintained as a part of Gov. Dwight H. Green's over all policy to reduce traffic accidents in Illinois. They are offered to the public by Harry Curtis, the superintendent of the State Police, and the Safety Lane operated directly out of the central office of state police in Springfield. Traffic Safety Section headed by Captain Ervin H. Warren. Theo E. Schwartz, the foreman of the Lane has four non uniform men to assist in the checking of cars and the Lane will leave Carrollton Friday evening.

Carrollton cars were rejected in the largest numbers on defective headlights, second place went to defective stop lights, third place to defective taillights and defective brakes were fourth in the list of mechanical defects of the cars that had gone through the Lane.

Father Raymond Franzen, chaplain, gave a short address on the "Feast of the Holy Rosary," which occurred Thursday, at the October meeting of Court Our Saviour, Catholic Daughters of America, Thursday night at the Knights of Columbus club rooms. Father Franzen urged members to recite at least a part of the rosary each day for the conversion of Russia to Christianity or for peace in the world.

Mrs. D. R. Martin, Carrollton, president of the Jacksonville Diocese Council of Catholic Women, in a letter to the grand regent, Miss Resa Walsh, urged attendance of members of Court Our Saviour at the convention of the Springfield Diocese Council of Catholic Women to be held at the St. Nicholas hotel in Springfield this week end. Highlighting the program will be addresses by Reverend James Keller, M.M. of New York, director of the Christopher movement; Miss Eileen Egan, Washington, D.C., project supervisor of War Relief Services of the National Catholic Welfare Conference; Monsignor John B. Franz, administrator, Vacant. See of Springfield in Illinois; Mrs. W. H. Harper, Peoria, newly-elected director of the NCCW board; Reverend Raymond O'Connor, director of the Diocesan Council; and Reverend John McGrath, assistant director.

Miss Gusse Duffner was elected delegate and Mrs. Albert McNeely alternate to this convention by Court Our Saviour, and Mrs. J. J. Ferry, Deane's chairman of Libraries and Literature, will also attend and will preside at the meetings of that section in the absence of Miss Margaret Gallagher, Springfield, Diocesan Chairman of Libraries and Literature.

Anyone not present at the meeting is urged to call either Miss Ring or Mrs. Ralph Eoff, the other members of the bowling committee, if she would like a place on the bowling team.

Mrs. R. E. Sauer invited members to join the Entre Nous Toastmistress

club which meets at Hamilton's Cafe at 6:30 on the third Wednesday of each month.

## Under Knife at Age 91 Hours

If 2 1/2-week-old John Charles Walters, of North Hollywood, Calif., could talk, he'd talk about his operation. He was 91 hours old when surgeons removed half his lung to clear a dangerous congestion. The scar can be seen just below hand of his mother, Mrs. John R. Walters, who beams at her son's quick recovery.

## Civic Music Group Ends Membership Campaign Saturday

The Loves of Carmen

By SOPHIE KERR

Copyright, 1948. MEA SERVICE, INC.

Serialized version of screenplay from a novel by Prosper Merimee

THE STORY: Don Jose, young cavalry captain, has just come to Seville from the countryside of Navarre. On his first day in the city, a gorgeous gypsy girl flirts with him, then disappears. Some days later he is on duty at the square, with his friend, Andres, when he sees her again. Andres greets her warmly as Carmen, but her glances are all for Jose. Shortly afterwards, Carmen gets into a street brawl with another woman and knifes her. Jose, ordered to take her prisoner, lets her escape. As a result, he gets extra guard duty and is confined to barracks for 30 days. On the last night of his extra duty, he is amazed to see Carmen attend a party at the colonel's house. She turns his questions aside, hints he meet her at the Lilliput. But at the tavern, Jose discovers a drunk and grieving Andre also waiting for Carmen. Jose and Andre, they both leave. An old gypsy woman tells Carmen the cards predict love and death.

GUITARS were playing in the square against the rhythmic rise and fall of the cante jondo singing. Bonfires had been lighted all across the square, but the singers stood in a circle behind the main fire clapping their hands in the steady, insistent flamenco rhythm as they sang. A peg-legged gypsy man was doing a comic but skillful dance to the clapping, singing and shouting encouragement of his audience, which added its own barbaric rhythm to the steady swelling of guitars. As the peg-legged one leaped and turned, his shadow was thrown into the faces of the singers, distorting the dance grotesquely. Presently, he was joined by a fat gypsy woman, shrilling at the top of her lungs a whining and wailing flamenco chant as she advanced crab-fashion in tiny side steps which exactly matched the rhythm of the clapping.

The woman had an infant slung in a sort of scarf-hammock from her shoulder. Its dark little face peered out with bright beads of eyes. The fat woman ignored the

whirling together now, until one of the youths fell away and Carmen and the remaining man were left to dance alone. He was a slim, young gypsy and the dance became a wild, joyous sort of primitive ritual of advance and retreat, advance and retreat.

body completely as she flung her child about in a lumbering yet graceful dance, as she turned around and around, first toward the fire, then away from it. The purple and scarlet clothes she wore glowed and shone against the flames.

Carmen sauntered out toward the square, leisurely her skirts swinging like the tail of a prowling cat. She pretended to be in complete control of herself as she ambled like a tourist toward the music, but her measured steps told that she had already been caught by the pervasive beat.

Carmen crouched with the others around the fire. She clapped her hands in rhythm with the other gypsies but her eyes kept watching the crowd, watching and waiting.

The fat gypsy woman danced on but the peg-legged man was pulled down and two young gypsy men took his place. The dance whirled faster and faster until the fat, infant-laden woman could no longer keep up. As she waddled from the fire-circle, the male dancers started another rhythm, provocative and alluring, their laughing faces turned to Carmen. They beckoned her to join them.

Carmen shook her head as though to say their dancing was not good enough to lure her out from the crowd, her eyes daring meanwhile from face to face around the fire-circle. Suddenly she seemed to have found that which she sought and across her face went a slow, triumphant smile.

Slowly, Carmen rose. She stood up straight as an arrow. Don Jose was at the edge of the fire-circle, staring at her. He watched her make her way in rhythm towards the men dancers, never once looking in his direction. As she moved out, a great shout went up from the watching gypsies.

The dance went on, three figures

## Rotarians Hear Plans For Aid To Passavant

The Jacksonville Rotary club Friday heard George K. Hendrix discuss proposed federal and state programs of financial aid toward the construction of the new Passavant hospital. Mr. Hendrix is chief of the Division of the Hospital Construction and Services, Illinois Department of Public Health.

H. L. Caldwell, president of Rotary, presided. The speaker was introduced by Milton Range, club program chairman and president of the Board of Trustees, Passavant hospital.

Mr. Hendrix directed his remarks to the challenge which has been presented to the community to provide the balance of funds necessary to receive the state and federal funds which have been obligated for the construction of the new Passavant hospital. A total of \$1,400,000 in state and federal funds are available for the project, providing the community furnishes \$700,000. Part of this sum is already on hand.

Needs Set Allocations — Mr. Hendrix related the history of the federal and state programs in aid of hospital construction, pointing out that the present program is the first in the history of the United States which has provided funds to aid local communities in hospital construction. He emphasized that all funds made available are allotted strictly in accordance with the needs of the respective communities.

Mr. Hendrix stated that the federal and state aid programs are not a step in the direction of socialized medicine in that, after the building has been erected, the federal government has no control over its use or the manner of the hospital's operations. The state retains only such control as is necessary to assure that the hospital is operated and maintained in accordance with minimum health standards.

One Of Largest — Jacksonville, said Mr. Hendrix, is one of the six communities in the state of Illinois for which funds

are available for hospital construction.

Those attending the dinner were Mr. and Mrs. N. Velten, Martha and Edna, Mr. and Mrs. Alfred Newell and son, Mrs. Elizabeth Gutmann, Mary and Joe Gutmann, Fred Hexter, Jr., Mr. and Mrs. Martin Gutmann and Patsy, Mrs. Lucy Reiser and Mary Louise, Mr. and Mrs. Leo Reiser, Rosemary, Tommy and Johnnie, Mr. and Mrs. Homer Leonard and Johnnie, Mr. and Mrs. Ed Newell, all of Ashland; Mr. and Mrs. Charles Williamson, Mr. and Mrs. Henry C. ## Vacation Travel, Via Boat, Told To Kiwanians

The Rev. Lewis N. Raymond regaled the Kiwanis club Thursday with an account of the fun and trials of a boat trip up the Mississippi, through the upper canal and back home via the Illinois river.

The minister and his family made the trip this summer during his annual vacation. The boat, built by the skipper, performed very well. Rains, blistering sunshine reflected by the water, hungry mosquitoes and inadequately manned locks on the canal made up the more trying moments of the long water trip.

A. Wadsworth Applebee, chairman of the committee which is bringing the comedy hit, "John Loves Mary" to Jacksonville on Monday evening, Oct. 18, announced ticket sales have been very good up to date. A capacity house is anticipated.

The college quartette, composed of Mrs. Curtis Engleman, Miss Lucille Hane, Henry Busche and Joseph Cleland, sang two selections.

Dr. C. P. McClelland then spoke briefly concerning the college advancement. Mrs. Griffin, daughter of Mrs. James MacMurray, was introduced to the group and then Mrs. James MacMurray gave her greetings.

Miss Betsy Purnell of the class of 1943 presented an "Historical Sketch of MacMurray College" stressing the life at MacMurray of an average student there in the 1850's. She ended with Peter Cartwright's words, as true now as in 1852, "This is a noble craft, beautiful to look upon . . . I predict for her a great future."
